

FSES CU Courses offered in English in Academic Year 2023/2024 - preliminary list, minor changes can occur					
Bachelor level courses					
Winter Semester					
Code	Course	Credits	Short Description	Lecturer	Study Programme
FSEV.ÚEŠMV/1-UES-950/22	Academic Communication I.	6	The course introduces students to the environment of academic communication. It covers key topics of active and critical reading and argumentation including.	Mgr. Zuzana Maďarová, M.A., PhD.	European Studies
FSEV.ÚEŠMV/1-UES-750/16	History of Political Thought 1	6	Students will learn about the historical development of political thinking based on key publications and approaches from different authors.	Shane Markowitz, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-380/22	Introduction to Energy Security in EU	6	Students will build up on the previous knowledge from subjects on International Relations and those connected to European Union (The Law of the EU, The Institutions of the EU).	Mgr. Andrea Figulová, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-110/16	Comparative Politics I.	6	The course's main objective is to give an overview of the most important principles shaping comparative method in political science.	Mgr. Miroslav Pažma, doc. JUDr. PhDr. Lucia Mokrá, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-1200/22	Media in International Relations	6	The course provides an interdisciplinary approach that considers both cultural and political dimensions of media coverage of international relations (IR)	Mgr. Lucia Yar, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-990/22	International Relations I	6	Upon completion of the course, students will have a solid introduction to the main problematics of International Relations and diplomacy.	Mgr. Clarissa do Nascimento Tabosa, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-1400/22	International Relations III	6	Upon completion of the course, students will have the ability to identify and critically analyze core current issues of international politics.	Mgr. Clarissa do Nascimento Tabosa, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-190/22	Political Sociology	6	As a result of participating in Political Sociology course students will be able to use key concepts on analyzing the political and social problems and to identify how changes in social structure impact politics	doc. PhDr. Olga Gyárfašová, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-210/22	The Law of the European Union	6	After successful passing of the course The Law of the European Union, students will be able to apply EU laws both on national level as well as to evaluate the fulfilment of Member State's obligation in relation to EU law application.	doc. JUDr. PhDr. Lucia Mokrá, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-080/22	Sexuality in Public Policies	3	After successfully passing the course "Sexuality in Public Policies", students understand key analytical categories, theoretical approaches and subject areas related to the study of the social construction of gender, sex and sexuality within public policies.	Mgr. Veronika Valkovičová, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-660/15	Theories of Democracy	6	Students will learn about basic terms and categories of democratic theory. Upon completion of the course, students will have a solid introduction to the basic concepts and problems in democratic governance	Mgr. Pavol Harďoš, M.A., PhD.	European Studies
FSEV.ÚEŠMV/1-UES-1000/22	Introduction to Quantitative Research Methods	6	The course is a practical introduction to understanding quantitative research in political science. Course grading: semester tests (30%), final test (40%), assignments (40%) of the total grade	doc. PhDr. Andrej Findor, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-240/22	Western Balkans in the Context European Integration and Security	6	Students will obtain basic knowledge about the history and current state of affairs in Western Balkans countries, mainly in the context of Yugoslav wars, EU enlargement and geopolitical dynamics of great powers (China, EU, USA, Russia).	Mgr. Rastislav Báčhora, PhD.	European Studies
FSEV.ÚAP/1-UAPen-1410/22	Train the Trainer (Soft Skills)	6	After completing the course, students will be able to create basic development programs and independently carry out simple educational activities aimed at developing soft skills.	Bakoš	Applied Psychology
FSEV.ÚAP/1-UAPen-770/22	Psychology of Minority Groups	6	Completion of the course should enable the student to understand the mechanisms of creating mistrust towards minorities, especially the negative impact of stereotypes and prejudices when judging individuals from minority groups. At the same time, the student should become more familiar with the real needs of members of different minority groups and with the possibilities of promoting equality and nondiscrimination.	Mariani	Applied Psychology
FSEV.ÚAP/1-UAPen-1260/21	Psychology of Drug Use	6	tudents will gain a basic theoretical overview of psychoactive substances and trends in their use, and of traditional and modern approaches of psychological counselling, psychological specialization and helping professions to drug use and addiction treatment. The course develops an understanding of working not only with the individual but also with vulnerable communities at risk.	Šudila Žilinská	Applied Psychology
FSEV.ÚAP/1-UAPen-1400/22	Presentation Skills	6	Building a structure of presentation. Understanding your audience so that you can give them information they need in best way. Creating effective visuals. Presenting in online set up. Discovering and becoming comfortable with one's individual presentation style. Controlling nerves, dealing with difficult or unexpected situations and challenging audience. Method: experiential learning, individual feedback (video, peer feedback)	Popovičová	Applied Psychology
FSEV.ÚAP/1-UAPen-50/22	Neuropsychology and Neurophysiology	6	After completing the course, the students will be able to understand composition and organization of brain and nervous system, their functions, and their connection to human mind.	Křížová	Applied Psychology
FSEV.ÚAP/1-UAPen-150/21	Methodology and Methods in Psychology: Quantitative Methods	6	Upon completion of the course the students will master the principles and standards of psychological research (including ethical research principles) and develop skills in the field of quantitative psychological research. Students will be able to work with scientific texts (from searching activities to text presentation), will gain information and practise about writing and presenting quantitative scientific papers. Students are also engaged into current research activities at the faculty.	Greškovičová	Applied Psychology
FSEV.ÚAP/1-UAPen-220/22	Methodology and Methods in Psychology: Qualitative Methods	6	The student will gain knowledge about qualitative approaches in psychological research and will conduct independent work with these methods. The aim of the course is to shape students to become critical and tolerant personalities with a high level of professional knowledge and transferable skills, who will be able to one day take the torch of incremental expansion and gradual improvement of scientific research in the field of psychology	Masaryk	Applied Psychology
FSEV.ÚAP/1-UAPen-30/21	History of Psychology	6	Students will gain knowledge about the continuity of the development of psychological thinking and research. They will know the main directions and approaches in the development of psychological science and will be able to critically evaluate the research and clinical procedures of each approach and its contribution to current psychology. The acquired knowledge is focused also on the interdisciplinary aspects of psychological science, therefore students gain also basic knowledge of selected human, social and behavioural sciences.	Merva	Applied Psychology
FSEV.ÚAP/1-UAPen-270/21	General Psychology 1	6	Students acquire basic knowledge and terminology in psychology. They get an overview of the main directions in psychology and a view of psychology as to scientific discipline. They will gain a basic overview of the methodology of psychological research and knowledge of ethical principles in conducting psychological and research activities.	Lisá, Sklenářová	Applied Psychology
FSEV.ÚAP/1-UAPen-550/21	Educational and School Psychology	6	Students will gain knowledge of educational and school psychology, which primarily leads to the knowledge of the individual and psychological aspects of his/her behavior and experience within groups in the context of the school environment. Students can use theoretical knowledge and research results and based on theoretical knowledge can analyze various school situations and case studies from the school environment.	Sokolová	Applied Psychology
FSEV.ÚAP/1-UAPen-40/21	Developmental Psychology	6	After completing the course, the students gain theoretical knowledge about stages of human development across life span. Students are able to understand and describe changes in physical, cognitive, emotional, and social domains across each stage of human development.	Křížová	Applied Psychology
FSEV.ÚAP/1-UAPen-1050/21	Cross-cultural Psychology	6	Course introduces cross-cultural, cultural and indigenous psychologies. Focus will be on indigenous psychologies in countries where are these psychologies developed. Class should improve students' cross-cultural understanding. Student will get information about actual development in the field of cross-cultural and indigenous psychologies, knowledge about theoretical basis of these fields and specific issues related to their methodology.	Linkov	Applied Psychology
FSEV.ÚAP/1-UAPen-140/21	Counselling Psychology	3	After completing the course, the students gain theoretical knowledge in counseling psychology. Students are able to describe a counseling process, a role of a therapeutic relationship, and ethical principles guiding the therapeutic process and relationship. The student acquires basic counseling skills with individuals and groups.	Křížová	Applied Psychology

FSEV.ÚAP/1-UAPen-560/21	Clinical Psychology	3	After completing the course, the students gain knowledge about clinical presentation of mental health disorders, their etiology, assessment, and treatment options. The student gains a general understanding of issues in clinical psychology, including current topics, research trends, and treatment advancement.	Janičík	Applied Psychology
FSEV.ÚAP/1-UAPen-10/21	Academic Skills	6	The aim of the course is to develop key academic skills that students will use during their university studies. Students will gain information about the basics of research methodology and writing and presenting scientific papers.	Greškovičová	Applied Psychology
FSEV.ÚE/1-AE-060/14	Microeconomics	9	Intermediate microeconomics. It will focus on basic ideas, microeconomic concepts as elasticity of demand and supply production function, characteristics difference between Perfect Competition and imperfect Competition.	Jánošová, Domonkos	Applied Economics
FSEV.ÚM/1-ÚM-022/21	Marketing (Lectured in Martin)	5	The aim of the course is to acquire theore	Vartiak	Mediamatics
FSEV.ÚM/1-ÚM-067/22	Backend Technologies (Lectured in Martin)	5	Backend technologies course extends knowledge gained on Frontend technologies course (which is the prerequisite for this course), widening the approach to server-based rendering of webpages, connecting them to external data sources (databases, APIs) and covering topics like security, computational complexity and use of backend frameworks using currently available open-source packages.	Grečnár	Mediamatics
Summer Semester					
to be updated	American Studies	3	As a result of completing the course "American Studies", students will be able to apply the interdisciplinary approach to the analysis of concepts, methods, and technologies pertinent to research in the field of American history, politics, society, and culture. Moreover, they will be able to evaluate the ways in which the historical development of political, social and cultural structures of the United States may impact current political, social, and cultural issues: civil society and democracy, migration and race relations, multiculturalism and national identity. The students will also be able to develop their skills in using different academic sources for building their arguments and presenting them in front of the audience.	Katerina Kasatkina, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-760/22	History of Political Thought 2	6	Students will learn about development of political thinking based on the key elements and concepts.	Shane Markowitz, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-980/22	History of Postwar Europe and European Integration	6	(Geo)political developments in Europe (world) over the past 200 years. Shift of major power centers, major political and social trends. Events leading to WWII.	PhDr. Kálmán Petőcz, PhD.	European Studies

Mgr. Donald Wertlen, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-130/22	European Political Cultures	6	As a result of participating in European Political Culture course students will be able to use key concepts on analyzing the political culture in all its diversity.	doc. PhDr. Olga Gyárfášová, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-370/22	Institutions of the EU	6	Students will learn about functioning of the EU institutional system, the system of multi-level governance and relations with EU Member states as well as about processes that lead to the formulation of EU policies.	doc. JUDr. PhDr. Lucia Mokrá, PhD., Mgr. Bibiana Wertlen, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-220/22	Comparative Politics II.	6	Students will deepen their knowledge and learn about political institutions and government systems in different countries based on key publications and views of different authors.	Shane Markowitz, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-270/22	Comparative Politics III.	6	In the course "Comparative Politics - Central Europe" students will learn to analyse the different political concepts of Central Europe and the specificities of the region's past and present development	Mgr. Juraj Marušák, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-180/22	Human Rights I.	6	By completing the course, students will gain theoretical knowledge about the development, categories of human rights and freedoms, from a national and transnational perspective.	Mgr. Michaela Dánešová	European Studies
FSEV.ÚEŠMV/1-UES-320/22	International Organizations	6	Students will broaden their knowledge about the international system functioning, including the precise knowledge on the structure of international organisations, on the dynamics of the relationships between international organisations and their organs, staff, and the outside world	Mgr. Bibiana Wertlen, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-1300/22	International Relations II	6	The aim of the course is to introduce the students to the study of International Relations (IR). The students will be presented with the discipline's historical origins, its purpose, its debates, as well as the basic theoretical approaches it has developed	Mgr. Clarissa do Nascimento Tabosa, PhD.	European Studies
FSEV.ÚEŠMV/1-UES-960/22	Introduction to Qualitative Research Methods	6	Students are entitled for 1 re-take of final paper. Students are entitled for maximum 2 absences, which have to be justified according to Code of Studies. Midterm exam and graded in-class activities can be retaken only in case of an excused absence.	Mgr. Jakub Csabay	European Studies
FSEV.ÚAP/1-UAPen-1360/22	Statistics for Bachelors Thesis	6	Student has the general knowledge in this subject, including relevant updates. Student has the knowledge of ethical principles associated with psychological and research work as well as the ability to apply them.	Janičík	Applied Psychology
FSEV.ÚAP/1-UAPen-200/21	Statistics	6	The student will gain knowledge about current statistical approaches in the field of psychology. They will learn to use and independently apply appropriate procedures for processing quantitative data.	Merva	Applied Psychology
FSEV.ÚAP/1-UAPen-70/21	Social Psychology	6	The student will gain knowledge about the development of psychological thinking and research with a focus on social psychology and the theoretical basis of social psychology with a focus on the functioning of the individual in social groups, the dynamics of social groups and research in social psychology.	Mariani	Applied Psychology
FSEV.ÚAP/1-UAPen-100/21	Social and Psychological Skills Training I.	6	The course takes the form of active social learning and cultivates students' communication skills and emotional intelligence. Students will be trained to work with emotions to achieve relevant skills which are necessary for the profession of psychologist.	Greškovičová	Applied Psychology
FSEV.ÚAP/1-UAPen-1300/22	School Psychology Interventions	6	The student will gain knowledge and practical skills in the field of diagnostic and intervention activities of the school psychologist, will be able to identify the needs of intervention in the school environment, design and evaluate intervention procedures for practical psychological problems arising from the school environment.	Sokolová	Applied Psychology
FSEV.ÚAP/1-UAPen-80/21	Psychology of Personality	6	The student will understand the concept of personality, biological, and social determination of personality, structure, and dynamics. Students will understand the differences between the theories of personality psychology and learn the basics of their application into practice	Sklenárová	Applied Psychology
FSEV.ÚAP/1-UAPen-170/21	Psychology of Marketing Communication	6	The student will gain knowledge and skills related to psychology of marketing communication and the most recent trends in the area. The aim of the course is to equip students to engage with the state-of-the-art research in the area as well as to acquire transferable skills.	Masaryk	Applied Psychology
FSEV.ÚAP/1-UAPen-160/21	Psychology of Life Cycle	6	After completing the course, the students gain knowledge about the roles and tasks families encounter in each life cycle stage and describe how societal and cultural factors influence families across the life course.	Křížová	Applied Psychology
FSEV.ÚAP/1-UAPen-290/21	Psychology of Language	6	The course will present selected themes from linguistics relevant for psychology. After the course, students should improve their understanding of how language is connected to certain social and cognitive issues and how it works in some linguistic environments different from those in Central Europe.	Linkov	Applied Psychology
FSEV.ÚAP/1-UAPen-1060/21	Psychology of Health	6	To provide students with basic information in the field of health psychology, ie the significance of psychological factors in maintaining good health, preventing disease, managing negative health conditions, providing psychological assistance to patients during recovery and coping with chronic diseases.	Maďarasová Gecková	Applied Psychology
FSEV.ÚAP/1-UAPen-1350/21	Psychology of Family	6	After completing the course, the students gain theoretical knowledge about the dynamics of family systems, including family functions, family roles, and communication patterns. At course completion, the student is able to understand and work with theoretical and empirical literature from the field and conduct a presentation in front of their colleagues.	Křížová	Applied Psychology
FSEV.ÚAP/1-UAPen-1230/21	Psychology of Creativity	6	Students will gain basic and current theoretical knowledge of creativity, the basics in identification and development of creativity in various fields of psychology. Emphasis is placed on the development of one's own creative thinking, therefore part of the subject is also devoted to the analysis of one's own creative personality.	Greškovičová	Applied Psychology
FSEV.ÚAP/1-UAPen-110/22	Organizational and Work Psychology	6	By completing the course, the student acquires basic knowledge about the application of psychology in organizations during the entire employee cycle - from obtaining candidates for the organization, through recruitment and selection, development and management, to the termination of employment.	Popovičová	Applied Psychology
FSEV.ÚAP/1-UAPen-60/21	General Psychology 2	6	The objective of the course is to acquire basic knowledge and terminology of general psychology. Students will acquire basic knowledge and terminology in the field of general psychology. They will gain an understanding of history and current events in the area.	Lisá	Applied Psychology

FSEV.ÚAP/1-UAPen-1280/21	Environmental Psychology	6	Students will gain an overview of the psychological contexts coming from the interaction of an individual within the nature/environment. The course focuses mainly on the issue of climate change and the climate crisis, which has increasingly resonated in society in recent years, and will teach students to apply knowledge in the field of psychology in the context of the problem of climate change.	Šudíla Žilinská	Applied Psychology
