

Minutes No. 1 From the Meeting of the Study Program Board

Study Program: Social and Work Psychology (in English), Bachelor's Degree
Date: 13.1.-14.1.2026

Attendees (without titles): Sokolová (Programme Director) Soták Lisá, Greškovičová, Kanovská Halamová, Martinkovič (employer representative), Hlubocká (student representative)

Absent (without titles): Šoková

Agenda:

- Classroom observations in the Winter Semester 2025/2026
- Evaluation of the student survey for the Summer Semester 2024/2025
- Amendments and proposals to course information sheets
- Miscellaneous

The Study Program Board ("SPB") approved the agenda, and the Programme Director stated that the SPB was quorate. The third item on the agenda was subsequently approved per rollam.

Ad 1) Classroom observations in the Winter Semester 2025/2026

The Quality Assurance Committee conducted classroom observations and prepared a brief report:

In November 2025, classroom observations were conducted for seminars on Methodology and Methods in Psychology – Quantitative Methods and Academic Skills. The sessions took place according to the valid schedule in accordance with the information sheet. The professional and language level of teaching and instruction were adequate. Teachers were given recommendations on managing group dynamics, working with time and teaching pace, and providing space for feedback.

Resolution No. 1/1/2026

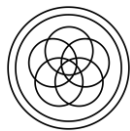

The SPB took note of the results of the classroom observations.

Ad 2) Evaluation of the student survey for the Summer Semester 2024/2025

The evaluation of the student survey was prepared by the Director of the Institute of Applied Psychology.

Based on the quantitative evaluation, the following results were obtained:

- **11 courses were evaluated as very positive**
(School Psychology Interventions, Conflicts and Their Resolution, Psychology of the Family, Life-Span Psychology, Organizational and Work Psychology, Clinical Psychology, Cognitive Psychology, Statistics, Personality Psychology, Social Psychology, General Psychology 2)
 - In the qualitative evaluation, students appreciated verbal feedback after presentations, interesting and enjoyable classes with a relaxed atmosphere, well-facilitated discussions in which everyone had the opportunity to speak, engaging classes, clear explanations of the subject matter, practical activities, an excellent teaching approach, and well-structured course content.
- **4 courses were evaluated as rather positive**
(Psychology of Religion, Psychology of Creativity, Social Psychological Training I)
- **1 course was evaluated as rather negative**
(Health Psychology) – specific comments were discussed and forwarded to the instructors for implementation.
- **1 course was evaluated as very negative**
(Psychology of Marketing Communication) – specific comments were discussed and forwarded to the instructors for implementation.

The SPB discussed the results of the student survey for the Summer Semester 2024/2025. It noted the low level of student participation despite the promotion of the survey. As the feedback from the student survey will be incorporated into selected courses, the SPB does not propose any further measures.

Resolution No. 2/1/2026

The SPB reviewed the student survey results for the summer semester 2024/25 and does not propose any further measures, as the feedback has been incorporated into selected courses.

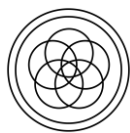

Ad 3) Amendments and proposals to course information sheets

The SPB received revised course information sheets for five courses:

- a) **Statistics** – modification of the course requirements and class syllabus
- b) **History of Psychology**- modification of the course requirements, learning outcomes, class syllabus and literature
- c) **Psychology of Health** – modification of the course requirements, learning outcomes and literature
- d) **Environmental Psychology** – modification of the type of activities and course requirements
- e) **Methodology and Methods in Psychology – Quantitative Methods**– modification of literature.

Rationale for revisions:

The course literature and course outlines in existing courses were updated to reflect current developments in the field. Revisions to assessment requirements were made in response to student feedback.

The SPB reviewed the amendments to the course information sheets and subsequently voted on each course separately.

a) **Statistics** – modification of the course requirements and class syllabus

3. S úpravou informačného listu predmetu Statistics

Resolution No. 3/1/2026

The SPB approved the proposed amendments to the course information sheets of the following courses: Statistics, History of Psychology, Psychology of Health, Environmental Psychology, and Methodology and Methods in Psychology – Quantitative Methods.

The updated course information sheets will be submitted by the Programme Director of the SPB for approval to the Accreditation Board of the Faculty of Social and Economic Sciences, Comenius University.

Ad 4) Miscellaneous

The student representative raised a question regarding the requirements for the number of ECTS credits in psychology methodology and statistics courses when applying for second-cycle (Master's level) studies abroad. Universities that follow the EuroPsy recommendations generally require 30 ECTS credits in methodology-related courses. This requirement is met in the Bachelor's programme in Social and Work Psychology through the following courses: Methodology and Methods in Psychology – Quantitative Methods, Methodology and Methods in Psychology – Qualitative Methods, Statistics, Bachelor Thesis Seminar I, and Bachelor Thesis Seminar II.

Some universities may apply their own specific criteria in this area; therefore, students are required to verify the requirements individually and, if necessary, adjust their selection of compulsory elective and elective courses accordingly.
